

WATER & WASTEWATER TREATMENT INDUSTRY

Mixtec – Western Engineering have been manufacturing a full range of mixing equipment for the WT & WWT industries for over 20 years. Each mixer is custom designed and manufactured for your application.

Mixtec – Western Engineering are a 100% NZ owned and operated company that prides itself on quality and on-time delivery. We manufacture mixers in our Auckland factory under licence using technology supplied by Mixtec in South Africa, who are one of the world's leading manufacturers of mixers and agitators.

Mixtec review your mixing process requirements based on tank dimensions, product viscosity, specific gravity and a process description to provide you with a mixing concept and quote for your mixer. All mixers are custom designed by our highly trained mixer design specialists who focus on the mechanical integrity of the mixing components and drive system resulting in reliable and robust solutions.

- Side entry mixers for large waste treatment tanks
- Top entry hydrofoil mixers for flocculation & flash mixing
- Top entry mixers for lime slurry, polymer makeup & chemical blending
- Top entry radial flow mixers for thickened sludge
- Flash mixers inside pipelines for rapid mixing of chemical dosing
- Static mixers for pH correction and chemical dosing
- Approved for use in ACC Watercare Material Supply Standard
